Little Angel

Design and brand changes

Prominent McLloyds Branding

Strengthening the Little Angel Brand

Retaining Teddy and Angelina Characters

Why We Made These 3 Packaging Changes

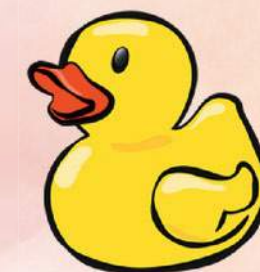

To improve the communication of our brands and maintain customer trust, we decided to make three key changes to our product packaging:

- **Strengthening the Little Angel Brand:** We highlighted the Little Angel brand with large, clear lettering on the packaging. Little Angel is the second most commercially successful brand under McLloyd's, and this change aims to boost its recognition and increase its visibility among our customers.
- **Prominent McLloyds Branding:** We added a distinctive McLloyds branding at the top of the packaging, making it easier for customers to identify us. This step not only supports the Little Angel brand but also helps build McLloyds as a strong and reliable brand in the market.
- **Retaining Teddy and Angelina Characters:** We decided to keep the Teddy and Angelina characters in the text collage on the duck and bear. We don't want to confuse our customers with sudden changes, so we chose to retain these elements to ensure consumers continue to associate our products with their favorite symbols and remain loyal to our brands.

These changes allow us to communicate more effectively with our customers, strengthen our brands, and maintain the consistency that consumers expect.
