ABOUT US

Why to choose our legal services?

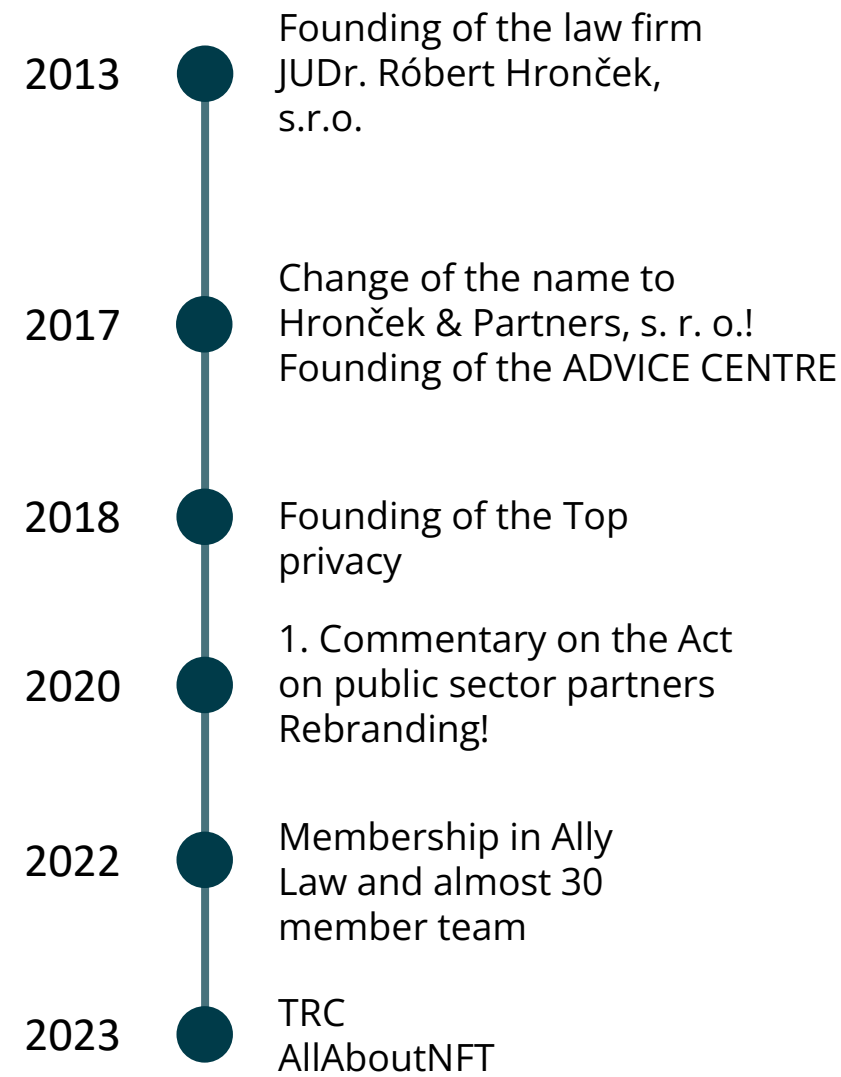

Choosing the right and reliable advisor is always a great help in improving yourself. Above all, consulting in the field of law is extremely wide range and affects almost all areas of the life of entrepreneurs and individuals, therefore the choice of a legal advisor is extremely important. We ensure that our legal services are professional and top-notch with an individual approach. Our main goal is to provide legal services of the highest quality and to bring innovative and professional solutions for the client so that we become their trusted partner.

ABOUT US

10 years of premium legal services

Since the establishment of our law office we have moved from providing legal services to local entrepreneurs to providing legal services for large businesses and also international corporations or large complex projects.

Constant progress, discipline and an active approach to the projects and legal problems of our clients confirm us that a pro-client approach and the search for the best solutions is the right way.

ABOUT US

Who we are and who we work with

We understand that the success of any company is based on people. Our law firm has qualified and experienced lawyers who stand behind the satisfaction and success of our clients. A high-quality team of experts offers the possibility of using legal services in all areas of law at the highest and professional level. Our team is complemented by a group of proven partnerships, thanks to which we can provide comprehensive services for any legal problem or client project.

ABOUT US

Our achievements

We provide legal advice to a wide range of clients, Slovak and foreign entities in various areas of law. In recent years, even the most prestigious international rankings have begun to notice the quality of our legal advice. Within the Legal500 ranking, we have repeatedly defended the *Firms to watch* position in the Corporate, Commercial and M&A categories. In 2024, we achieved recognition in the Legal 500 in the Client Satisfaction category, which reinforces our commitment to consistently deliver high-quality legal services.

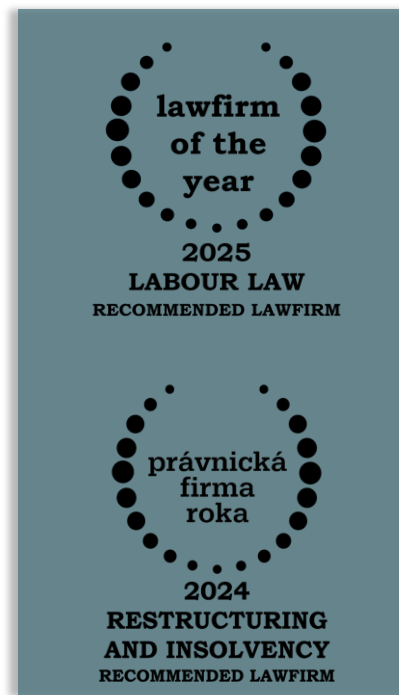

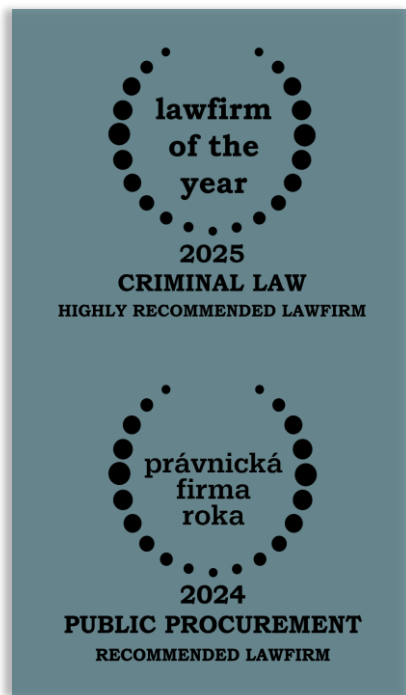

ABOUT US

Premium legal services

Hronček
& Partners

Since 2018, our services have been regularly recognized in prestigious polls and rankings. These awards confirm our excellent work and dedication to our clients. We are grateful for the recognition of our achievements and will continue to provide the highest quality legal services.

Expertise

A key factor for building client trust. We gained the experience thanks to the trust given to us by our clients and our partners.

Discretion

Commitment to discretion is a priority for us and your confidential information is in safe hands with us.

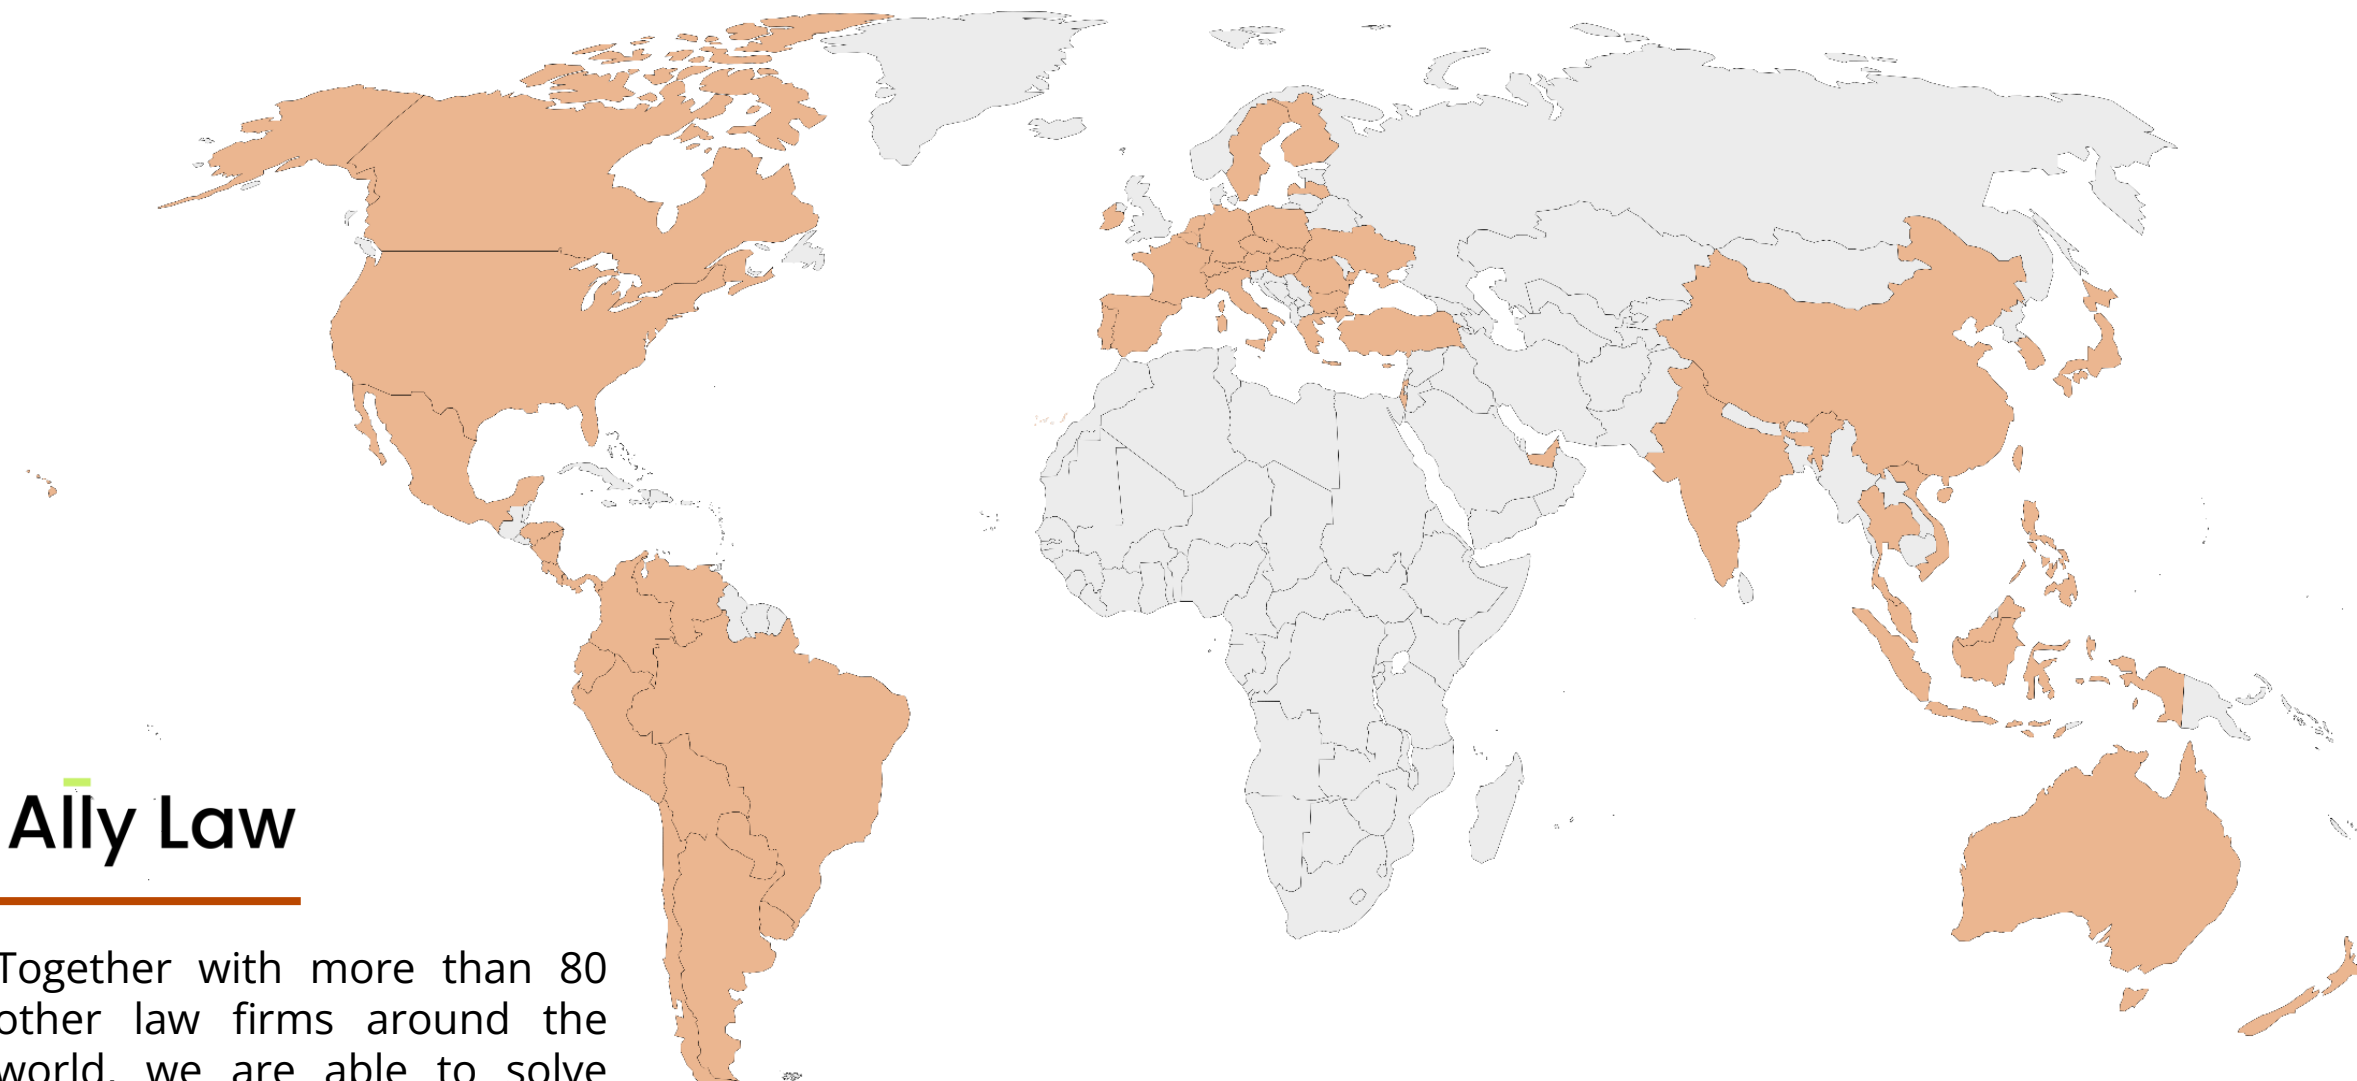

Innovativeness

Innovation is a driving force for us, which means that we provide legal solutions that are constantly evolving and adapting to new challenges.

Flexibility

We will adapt to your requirements so that you always receive legal advice of the quality you expect.

A world map showing various countries highlighted in orange, indicating a global presence. The orange regions include North America (USA, Canada), South America (Brazil, Chile, Argentina, Peru, Colombia, Venezuela, Ecuador, Bolivia, Paraguay, Uruguay, and Guyana), Europe (UK, France, Germany, Italy, Spain, Portugal, Ireland, Greece, Turkey, Poland, Czech Republic, Slovakia, Austria, Hungary, Switzerland, and the Benelux countries), India, China, Japan, South Korea, Taiwan, Hong Kong, Singapore, Malaysia, Indonesia, Philippines, Thailand, Vietnam, Laos, Cambodia, Myanmar, and Australia. The rest of the world, including Russia, Africa, and parts of Asia and South America, is shown in light grey.

Ally Law

Together with more than 80 other law firms around the world, we are able to solve various projects of our clients even on an international scale.

„ Only with a high-quality team of experts can we provide legal services at the highest and professional level.“

OUR SERVICES

Commercial law and M&A

We provide clients with legal advice when starting a business and establishing a suitable legal form of a business company, implementing any corporate changes during the company's existence, as well as when liquidating and terminating the business.

In addition to the above, we help clients with acquisition structuring, strategic planning, including legal audit. Our consulting also includes negotiations, drawing up contractual documentation and other post-acquisition steps.

- Establishment of companies
- Changes in companies
- Termination of business and liquidation of the company
- Legal audits
- Advice on the acquisition of shares in business companies
- Preparation of contracts related to acquisitions or an investor's investment in the company

OUR SERVICES

Financial, tax, customs law

In this area, we provide comprehensive legal advice for Slovak and foreign entities operating on the Slovak and Czech markets. In the field of financial law, we represent clients especially when submitting applications for granting permits, and we also have experience in consulting in the field of cryptocurrencies.

We deal with tax issues in cooperation with top partners so that we can provide clients with a comprehensive service in this area. In particular, we represent clients in tax proceedings, issues of income taxes, withholding tax and its application, and we provide a comprehensive service in the matter of tax audits.

We also deal with the specific agenda of customs law. We usually provide professional consultations and representation of clients in cases of interference with the rights and interests of clients protected by law in public proceedings at customs offices, the Financial Directorate of the Slovak Republic and in courts.

OUR SERVICES

Security and data protection

Our law firm closely cooperates with the company **Top privacy s.r.o.**, which is dedicated to comprehensive professional advice in the field of personal data processing in the private and public spheres, the development of security documentation and the provision of activities of the responsible person according to Art. 37 et seq. GDPR regulations.

Together, in addition to the services of a responsible person and consulting in the field of personal data protection, we also represent clients during inspections by the Office for Personal Data Protection.

The trend of digitization of companies in recent years forced us to react to current trends, therefore we also provide services in the field of cyber security, information security and help individual companies to set up their processes and data flow in the digital transformation so that everything is protected and safe.

OUR SERVICES

Transport and logistics

In this area, we provide comprehensive services in the field of national and international transportation of goods for all types of transport. Since 2016, we have been an associate member of the Association of Logistics and Forwarding of the Slovak Republic, where we participate in meetings of working groups commenting on legislative proposals in this area.

Our advice in this area mainly consists of:

- Preparation of applications for permission to carry out regulated activities
- Representation of clients in the application of claims from road, rail, ship and also air transport of persons and transport of goods
- Preparation, analysis and commenting on relevant contractual documentation (forwarding contracts, transport contracts, storage contracts)
- Receivables solutions
- Convention CMR

OUR SERVICES

Permits/Licenses

Our team of lawyers provides expert advice and assistance in obtaining various permits and licenses for you and your business. We are here to guide you through the entire process from preparing the necessary documentation to communicating with the relevant authorities, ensuring that you or your company meets all legal requirements for seamless operation in the market.

Legal services that we offer as part of this service:

- registration (notification) of trade licenses
- obtaining a permit or license to carry out activities
- representation in proceedings before regulatory authorities of public power, especially in proceedings for the granting of a permit or license to carry out activities

OUR SERVICES

Energy

Our law firm provides specialized legal services in the field of energy. By providing legal services in the field of energy law, we will help you navigate the legal environment of the energy sector so that you can focus on your business. Our expert team will ensure that your projects run smoothly and in compliance with legal regulations.

In the field of this legal sector, we provide our clients with legal services, which include:

- representation in proceedings before regulatory authorities, particularly in proceedings for the granting of permits or licenses for activities in the energy sector
- preparation of legal analyses and opinions related to issues of price regulation and the activities of the Regulatory Office for Network Industries
- legal analyses of regulations in the energy sector and preparation of opinions based on client requests

OUR SERVICES

Collection of receivables

Debt collection is one of the key legal services that our law firm provides. Unsettled liabilities can have a negative impact on the financial stability and functioning of a company or personal finances. Therefore, we offer comprehensive and effective solutions to ensure the quick and successful collection of receivables. As part of this service, we ensure:

- judicial enforcement of financial receivables
- representation in promissory note proceedings
- representation before arbitration courts and arbitration bodies
- drafting legal actions related to receivables
- legal advice in the area of enforcement of law through the European Payment Order
- legal analysis in the area of enforcement and collection of receivables

OUR SERVICES

Innovations

We also provide legal services to startups, innovation projects of individual companies or in the field of technology transfer. As part of this, we specialize in the area of intellectual property law, financial law and corporate law. In this comprehensive package, we help:

In the field of company law:

- Setting up corporate structures
- Solving ownership relations
- Acquisitions and legal audits

In the area of intellectual property law:

- Trademarks and patent law
- Copyright
- Protection against unfair competition

In the field of financial law and financing

- Financing from public sources
- Advice on subsidy policy
- Bank and non-bank financing
- Crowdfunding

OUR SERVICES

Venture capital

Legal services in the area of Venture Capital are an essential pillar for the growth and success of new enterprises. These services provide comprehensive legal support for startups seeking funding from investors. As attorneys specializing in venture capital, we ensure:

- Initial company setup (selection of the state where the headquarters will be, legal form, establishment of partner relationships)
- Preparation of contracts
- Legal due diligence / audits
- Protection of intellectual property
- Addressing legal issues related to investments and exit strategies
- Creation of employee stock option plans
- Alternative financing methods

Our mission is to ensure that companies have adequate legal protection and can move forward with confidence and peace of mind despite the often significant market dynamics for venture capital-funded firms.

OUR SERVICES

Alternative financing

Our portfolio of services also includes expert assistance in financing your projects. During our many years of practice, we have encountered a low level of client knowledge about the possibilities of alternative financing for their projects.

Therefore, together with our partners in the area of EU funds and alternative financing, we can help you find the most suitable options for project financing.

The legal services provided include:

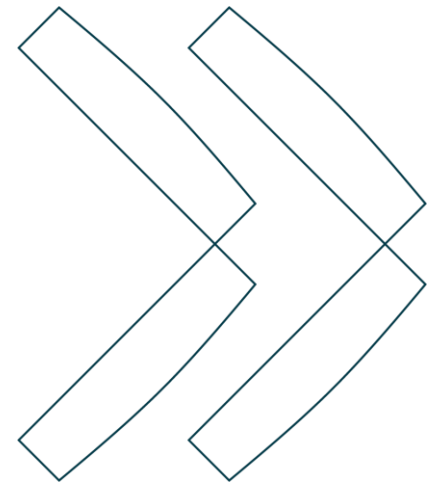

- financing from public sources – EU funds, grants, and subsidies
- financing from private sources – commercial financing, crowdfunding
- consulting on grant policy
- legal coverage of the entire process of obtaining financial assistance
