

ADRIAN GROUP s.r.o. is a leading manufacturer of high-efficiency, energy-saving HVAC systems for large-scale industrial and commercial facilities.

OVER 30 YEARS OF EXPERIENCE

Radiant and warm-air heating systems ensure maximum comfort and the required temperature conditions with minimal operating costs.

ADRIAN® COMPREHENSIVE SYSTEMS INCLUDE:

- Electric and gas-fired infrared heaters (luminous and radiant tube)
- Electric and gas-fired air heaters
- Gas ventilation units
- Air curtains – gas, electric, hot-water, and unheated
- Hot-water unit heaters
- Ceiling-mounted destratification fans
- Adiabatic cooling units
- Comprehensive control systems via web server or mobile application

BENEFITS OF ADRIAN® HEATING SYSTEM MODERNIZATION:

- Direct gas consumption savings of at least 30%
- Heating operating cost savings of up to 75–80% per season compared to conventional boiler rooms
- Return on investment within 2 heating seasons
- Easy installation, service, and operation
- Guaranteed temperature control
- Automatic system control
- Integration of all energy components into one intelligent system

ADRIAN® PRODUCTS ARE DESIGNED FOR:

- Production and warehouse halls, workshops, service centers, and garages
- Railway depots, aircraft halls, and hangars
- Logistics facilities
- Agricultural buildings, poultry farms, greenhouses, and more
- Shopping centers, sports halls, stadiums, waiting areas, and outdoor terraces
- Churches, Orthodox churches, mosques, and synagogues

ADRIAN GROUP OFFERS:

- Professional consulting in HVAC system selection
- Comprehensive calculations and comparisons for the most suitable technical solution
- Design and engineering consultation
- Project financing options
- Partner training and customer service support

ADRIAN GROUP holds the international EN ISO 9001:2015 quality management certification for the development, manufacturing, sales, installation, and servicing of energy and control systems. All products are CE certified, while products supplied to non-EU markets are certified with EAC approval. ADRIAN® systems comply with ERP directives and seasonal efficiency standards.

ADRIAN® has received the Crystal Mercury Award from the Slovak Chamber of Commerce and Industry for innovation and development, along with multiple awards from international exhibitions and trade fairs for outstanding products.
