COMPANY DESCRIPTION

The basic task of the company is a consistent service for the customer. Therefore, the company is based on the principle of building correct working relationships, loyalty and mutual trust, which is the key to achieving goals for both partners.

- Cooperation **primarily** with employees, but also with sole traders and external companies according to the needs and legal measures of the country where the work will be performed
- Ensuring complete treatment of **legal models** of work activities in individual states
- General **liability insurance** of 3 000 000€ and coinsurance
- **A large database** (about 1500) of potential candidates and constant recruitment

“Let’s build a better and healthier world”
