Big-Firm Assignments. Boutique Attention.

We stay with our clients across the whole journey of an IFI-financed project: strategy and feasibility, financing, procurement, implementation, and corporate development. Always with the partners in the room.

Senior by Default

Every assignment is delivered hands-on by our Managing Partners, supported by a curated network of technical experts. No hand-offs, no bench.

Fast by Design

Compact, senior teams mobilize in days and keep momentum through delivery: short decision lines and no layers between client and partner.

Trusted with More

Sole entity, consortium lead, or specialist partner: we take the shape each assignment needs. Two consortium leaderships were novated to VALORISE mid-implementation.

One Step Ahead, Across the Investment Lifecycle

1 Prepare

feasibility studies and CBA · due diligence · tariff and affordability analysis

2 Structure

investment structuring · financing options with EBRD, WB, KfW · financial instrument design

3 Procure

tender strategy and documents · EBRD PP&R via ECEPP · FIDIC works, goods, and services · bid evaluation

4 Implement

PIU establishment and support · contract administration · compliance and third party monitoring · ESAP alignment

5 Strengthen

FOPIP and corporate development programmes · KPI systems · capacity building, training, study visits · digital transformation and inclusive service design

Each engagement leaves the institution one step ahead.

Where We Work

Offices in Bratislava and Istanbul · project countries highlighted

European base, regional depth.

EU-registered in Bratislava and rooted in Istanbul, we combine European delivery standards with on-the-ground fluency across an arc of emerging markets: the Western Balkans, Türkiye, the Caucasus, Central Asia, and the Middle East. Clients get one team that works across cultures, languages, and institutional systems.
